

Training Courses

- Understanding the underlying process fundamentals will empower your engineers and operators to take the right decisions in critical, time-sensitive process matters.
- We can help you master the behavior of your process by answering:
 - ✓ What is controlling the behavior of your system?
 - ✓ How the key variables are interconnected?
 - ✓ How stable is your process?
 - ✓ What is the best control strategy?
 - ✓ How can your system operability and maintenance be improved?
 - ✓ Is your equipment or technology up to date?
- We will work with you to customize the course content to your specific needs.
- You can find below a series of popular fundamental and applied courses that we currently offer.
- To obtain more information and course brochures, or to register for a course, contact us today.

Applied Courses	Code	Days	Course Fee
			<i>On-site, fixed rate for up to 8 attendees</i>
Fundamentals of Fluid Flow and Heat Transfer	FFHT0	4	\$ 6,000
Two-Phase Flow Contactors	TPFC0	3	\$ 5,000
Metallurgical Furnaces	MF000	2	\$ 3,950
Fluidized Beds – Principles and Applications	FB000	2	\$ 3,950
Gas Cleaning Systems	GCS00	3	\$ 5,000
Novel Catalytic Packed Beds	NCPB0	2	\$ 3,950
Gasification Basics	G0000	1	\$ 2,750
Process Intensification Basics	PI000	1	\$ 2,750
Chemical Reactor Design	CRD00	4	\$ 6,000
Computational Fluid Dynamics	CFD00	4	\$ 12,500
